Education

Retail

# Adrian Forte

Adrian specialises in development led transport planning projects.

Adrian's responsibilities include the preparation, review and overseeing of various technical documents and assessments, including Site/Access Appraisals, Transport Assessments, Travel Plans and Transportation Chapters for Environmental Impact Assessments/Statements.

Adrian is highly experienced in the use of transport related software packages, including Junctions 9 (ARCADY/PICADY), LINSIG, TRICS, QGIS and TEMPro/NTEM, as well as the construction of detailed travel demand (traffic flow/distribution) network model spreadsheets.

In his spare time Adrian enjoys playing golf (badly!) and loves music (both new and old) and going to gigs and festivals.
