# Alec Prince

Responsible for a number of significant traffic impact studies throughout London.

Alec Prince heads up mode's London office. Alec is a transport planner with over 30 years' experience in transport engineering and planning. He has been responsible for the management and control of a number of transport impact studies giving specialist advice to private and public sector clients on transport and highway matters.

He has prepared Transport Assessments, Travel Plans, Delivery and Servicing Management Plans, Construction Logistics Plans and provided input to the Transport Chapter of Environmental Statements. He has given evidence at Public Inquiries and worked on projects predominantly in London and the South East.

He enjoys keeping fit, yoga and gardening and completed a 30-day yoga challenge during 2019.
