	Retail

Wing Lee

Wing has over 18 years' experience in transport planning and highway engineering for a wide range of development uses across the UK.

He engages with all highway authorities to ensure schemes are compliant with policy and guidance.

He has a solid record in securing planning consent for clients, as well as delivering cost effective transport and highways solutions. Wing has undertaken over 900 road safety audits for all stages of development.

Wing plays badminton in a local league in his spare time
